

Gammon Construction Limited

Introduction of the Organisation

Gammon Construction Limited is a leading construction company in Hong Kong, with further operations in Singapore and mainland China. Our integrated business focuses on civil, building, foundations, electrical and mechanical, facades and interiors works and design, and our construction services division provides considerable plant, steel fabrication and concrete production capabilities. We have a strong building and information modelling department and a digital entity dedicated to furthering the commercial opportunities of our own innovations, as well as those of start-ups, specialist groups and universities.

With an annual turnover of more than US\$3 billion, we employ almost 8,000 staff. Backed by two major international companies, Jardine Matheson and Balfour Beatty, we combine local expertise and global resources as we build Asia's 21st century infrastructure.

Our mission is to build for a better quality of life and living environment in a safe and sustainable manner. Our vision is to be the smart and digital contractor of choice in Hong Kong, China and Southeast Asia.

Our goal is to deliver a high level of quality to our customers. In this, we mean not only the quality of our built products and service outcomes, but also in the way they are delivered: reliably, safely and responsibly. We believe we can best deliver the level of quality to which we aspire by concentrating on our three core values of Safety, Integrity, and Excellence.
